Design a Line

1. On the appropriate page, insert a sketch for each principle or element specified in the assignment.
2. Enter information about the sketch in the top left cell of the table.
3. Insert a digital fabric "swatch" and describe the fabric in the bottom left cell of the table. Explain why the fabric is appropriate for the design.

Color Scheme

Design details:

Button up shirt:

Elbow length sleeves

Straight collar

Overalls skirt with side seam pockets

What is unique?

It takes design elements from the character Wreck-it Ralph from the same titled Disney movie and uses them for the female intended outfit.

What is the color scheme and what colors are used to create it?

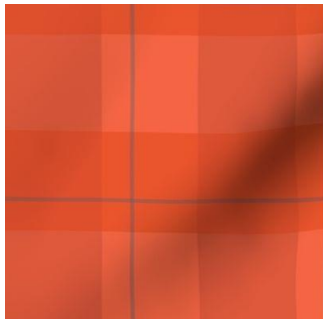

The color scheme is analogous. Colors used include red, red-orange, and orange. It also includes a neutral brown.

Describe the fabric.

Both plaid and checkered patterned, organic knit cotton, medium-weight interlock knit perfect for garments with a bit of structure

Why is this fabric appropriate for your design?

The fabric is directly advertised the shirt pattern for the character. Because the character is known for his demolition abilities, material chosen is intended to reflect that by being more durable than other types of fabrics.

Structural Lines

Design details:

Button up pleated sleeves shirt with Peter Pan collar

Wide leg pleated pants

What is unique?

The triad color scheme draws parallels to the character Woody in Pixar's *Toy Story*. The whole length of the sleeves and pants are pleated.

Which lines are predominant and what effect does that have on the garment?

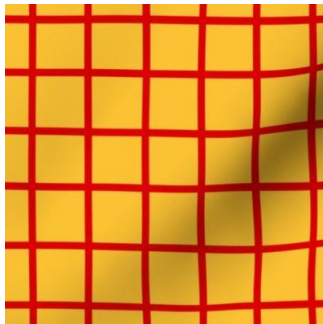

The predominant lines are those created from the pleats on the sleeves and pants. It has the effect of appearing to elongate the model.

Describe the fabric.

Yellow and red plaid pattern, 100% polyester crepe de chine fabric with a semi-sheer look and delicate drape

Why is this fabric appropriate for your design?

The pattern is directly associated with the character, allowing the onlooker to immediately make the connection. With its lightweight characteristic, it allows the fabric to easily swing around.

Asymmetrical Balance

Design details:

Ruched asymmetrical skirt

Sweater:

V-neck

Button up

Wrist length sleeves

What is unique?

The color scheme is from the slug monster character Roz in Pixar's *Monsters Inc.* The asymmetrical skirt is intended to imitate the tail end of a slug.

How asymmetrical balance achieved in the garment?

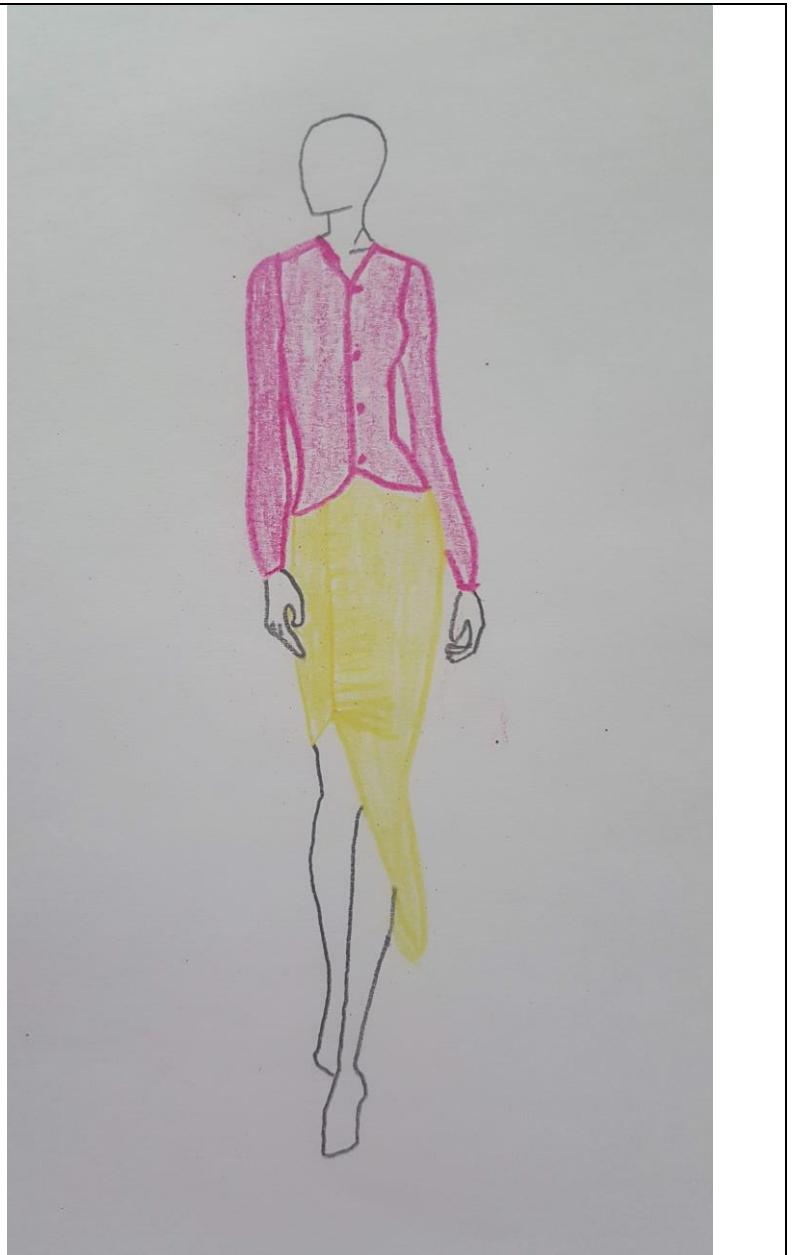

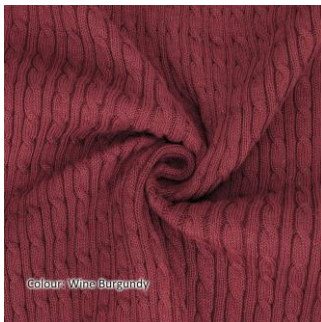

The hem of the skirt on the left side of the skirt hangs lower than the right side.

Describe the fabric.

100% Polyester, Sweater Style and Cable Twist Knit

Why is this fabric appropriate for your design?

It is in a style resembling the types of sweaters elderly women would wear, which is aligned with Roz's character type.

Focal Point

Design details:

Wide brim rain hat

Turtleneck shirt

Trench coat:

Calf length

Double breasted

Wide lapels

Knot belt

Rain galoshes

What is unique?

It uses a color scheme reminiscent of Disney's *Darkwing Duck*. It takes design elements from a cartoon character outfit and incorporates them into an outfit that can be used practically.

Where is the focal point?

The focal point is the yellow knot belt. It is meant to draw attention to the whole outfit, rather than letting the yellow galoshes garner the attention.

Describe the fabric.

The coat uses a polyester ripstop fabric of medium/heavy weight. It is coated with a PU (polyurethane) finish.

Why is this fabric appropriate for your design?

The fabric is well equipped to handle extreme weather conditions. It has a high degree of water resistance and durability.

Rhythm

Design details:

Ear-warmer headband
Long sleeved turtleneck
Running leggings

What is unique?

It uses a color scheme associated with Disney's *The Little Mermaid*, but for an outfit for cold weather.

What type of rhythm did you illustrate?

What effect does it have on the garment?

The rhythm of repetition is illustrated in the leggings. It has the effect of blending the legs together. In addition, the repetition is intended to continue when the legs are in motion.

Describe the fabric.

80% Nylon, 20% Spandex
Has a holographic green mermaid scale overlay with a vibrant iridescent shimmer when light hits it.

Why is this fabric appropriate for your design?

It combines with the color scheme to further associate the design with *The Little Mermaid*. The material is often used in garments for physical activity, and the reflectivity helps make the wearer noticeable, which is important for runners near vehicle traffic.
