Design Elements

1. Find photos that clearly illustrate these elements of design: line, shape, and texture.
2. Insert the photos in the table below.
3. Write a short description of the photo and discuss how the design element is implemented.
4. Include a description of at least two of the garment's design details (what type of sleeves, collar, skirt, etc.).

Line

Insert picture illustrating the element of line in a garment.

Write a short description of the photo.

This model wears a white dress with checkered, diagonal, decorative lines. The diagonal counters the both horizontal and vertical lines by giving off a sense of relaxed formality. It is a sheath dress with a bateau neckline and short kimono sleeves.

Shape / Silhouette

Insert picture illustrating the element of line in a garment.

Write a short description of the photo.

The main attraction of this model's outfit is the oversized overcoat. The sleeve cuffs extend well past the hands and the hem past the knees, keeping the body shape hidden by the elongated rectangle shape. Together with the sunglasses and face covering, the overall shape and silhouette is intended to be incognito and unrevealing. The overcoat has a wide peak lapel, welt breast pocket, and two flap pockets at the waist.

Texture

Insert picture illustrating the element of line in a garment.

Write a short description of the photo.

The jacket this model wears catches the eye with its texture. Despite the dark hue, it is shiny and reflective. In addition, it appears to be made of fabric pieces stitched together in an alternating, stacked rectangle pattern, like bricks making a wall. This sports jacket has a notch lapel exposing a contrasting, duller fabric and long, set in sleeves.
